

Funding. Connections. Support.

FLINN FOUNDATION
BIOSCIENCE 
ENTREPRENEURSHIP
 PROGRAM

Award:

- \$30,000 for project costs;
- Membership on Arizona's Bioscience Roadmap Steering Committee;
- Membership in the Arizona Bioindustry Association;
- Advisor provided to identify and help with firm's needs;
- Referrals to resources and consultants to help advance to commercialization;
- Exclusive events with fellow bioscience entrepreneurs.

Seeking firms that are:

- Engaged in commercialization of bioscience research and technology for medical devices and equipment; drugs and pharmaceuticals; research testing and medical labs; agriculture feedstock and chemicals; or bioscience-related distribution;
- Incorporated as an S-Corp, LLC, or C-Corp, and based in Arizona;
- In pre- or early-revenue stage; research-only projects do not qualify.

flinn.org/entrepreneur

APPLICATION OPENS: **December 11, 2023**

APPLICATION DEADLINE: **January 29, 2024**

“This program adds tools and support to the ecosystem, so Arizona entrepreneurs can develop promising businesses while advancing the Bioscience Roadmap. We know that when bioscience startups succeed and build critical mass, benefits ripple across our state.”

Tammy McLeod, Ph.D.
PRESIDENT AND CEO,
FLINN FOUNDATION

How to Apply

Complete application at flinn.org/entrepreneur, including two-page executive summary and pitch deck. Executive summary must address business model, financing, execution, market, and product/service.

Application review and interviews will be conducted by industry and scientific experts appointed by the Flinn Foundation. Up to six firms will be selected for the program. Constructive feedback will be offered to all applicants.

Apply at flinn.org/entrepreneur

Diversity drives innovation. While diversity is often used in reference to race, ethnicity, and gender, we understand it to also include diversity in one's background, life experiences, skill set, and self-identification. We encourage all to apply.

“The award was pivotal to our early success. It allowed us to kick off our journey by providing us with exposure and credibility locally and nationally. The program opened so many doors for us to grow our business and expand our outreach to strategic partners and key players in the market.”

Mohammad Albanna, Ph.D.
CEO, HUMABIOLIGICS

“Participating in the program was a game-changer. Winning this award provided excellent mentorship and access to a network of bioscience professionals.”

Courtney Williams
CEO, EMAGINE SOLUTIONS
TECHNOLOGY
